### Action Taken Report based on Employer's Feedback

**Faulty: Science**

**Department: Microbiology**

⊕

Sr. No.	Suggestions	Action Taken
1	Given the scope of microbiology, food technology and related practical are crucial components of the curriculum. Hands-on experiments and their focus on fundamental molecular estimations are also vital aspects.	Based on Employer feedback, many practical related to feed technology have been incorporated in syllabus. Basic aspects related to practical estimations of biomolecules have also been taught at the initial UG level.

## Stakeholder: Employer

### Action Taken Report based on Employer's Feedback

Faulty: Science

Department: Biotechnology

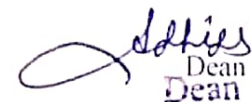

Sr. No.	Suggestions	Action Taken
1	Skill based industry oriented course should be included.	Food adulteration paper as VAC (Value added course) has passed for semester 2 syllabus of B.Sc. Biotechnology in IXth BOS.
2	Basics techniques of animal cell culture should be emphasised in B.Sc. Syllabus.	Basics of animal cell culture module has been included in semester 6 syllabus of B.Sc. Biotechnology.
3	Students should do industry-relevant projects in their final semester.	Final semester students of B.Sc. and M.Sc. Biotechnology are encouraged to find the dissertation work in the industry or reputed research institute.
4	Plant and Animal cell culture lab are well equipped for Basics work.	No action required
5	Bioinformatics lab facility should be improved.	Order of new computers with advance configuration have been placed.
6	Knowledge of recombinant biotechnology is much needed in current scenario.	Recombinant biotechnology has been included in semester 6 syllabus of B.Sc. Biotechnology.
7	Effective communication is essential in the biotechnology industry to disseminate scientific findings, collaborating with team members.	English paper has been also included in semester 2 of B.Sc. Biotechnology.

## Stakeholder: Employer

### Action Taken Report based on Employer's Feedback

**Faulty:** Science

**Department:** Chemistry

Sr. No.	Suggestions	Action Taken
1	Student required knowledge of process development for microgram scale to bulk scale.	As per the suggestion received from the employer and discussed in BOS meeting, we will arrange demonstrative session for large scale preparation and its operation as we have pilot plant for 25 KG capacity.
2	Industrial practical course related to green chemistry and industrial based or commercial products.	As we have some practical related to bulk drugs by using green technology.

## Stakeholder: Employer

### Action Taken Report based on Employer's Feedback

Faulty: Faculty of Business and Commerce

Department: Commerce

Sr. No.	Suggestions	Action Taken
1	Consider incorporating a project for final-year students centered around entrepreneurship. This project would provide students with the opportunity to develop a business idea from inception to potential market entry. This initiative would foster entrepreneurial skills, innovation, and practical problem-solving among students, equipping them for successful careers as future business leaders or entrepreneurs	In response to employer feedback, we have introduced a Business Plan project into the curriculum. This project is designed to provide students with practical experience in developing and presenting comprehensive business plans, enhancing their strategic thinking and planning skills. By incorporating this project, we aim to better align our curriculum with industry expectations and prepare students for real-world business challenges.
