Stakeholder: Academic Peers (Teachers)

Action Taken Report based on Academic Peer's Feedback

Faulty: Faculty of Science

Department: Microbiology

Sr. No.	Suggestions	Action Taken
1	Student Participate in National conference	Department doing same kind of activity to encourage student for Participation
2	Industrial visit of the students as per the curriculum.	Every semester there is local / industrial tour/ educational visit by department
3	Their must be focus on molecular diagnosis in upcoming tools	Noted
4	Food and Nutrition content increase in Academic curriculum	As per suggestion stalk holder we improve a topic of food and nutrition concept in academic curriculum.
5	Focus on Agriculture Microbiology	Student has a Agriculture microbiology paper in academic Year.

Action Taken Report based on Academic Peer's Feedback

Faulty: Science

Department: Biotechnology

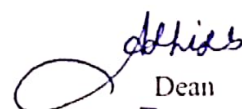

Sr. No.	Suggestions	Action Taken
1.	New technology of genomics and proteomics should be taught.	Genomics and proteomics as advance paper has been passed in the BOS.
2.	Recent advancement of immunology should be taught to the students.	Immunology paper has passed in BOS.
3.	NGS is trending now.	Detailed NGS topic has been included in in advance paper as Genomics and Proteomics.
4.	Concept of startups and entrepreneurship should be introduce to the student.	"Concept to Practice" paper has been passed for B.Sc. Biotechnology students in BOS.
5.	Student must be known to write the research proposal.	"Research Proposal Presentation" as a new component has been added to M.Sc. Biotechnology sem 2 syllabus.

Action Taken Report based on Academic Peer's Feedback

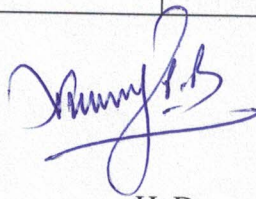

Faulty: Science

Department: Chemistry

Sr. No.	Suggestions	Action Taken
1	Include photochemical reaction and Mo theory concept in Organic chemistry syllabus in PG	Based on suggestions received from stakeholders, we have included Module 4, covering Photochemistry and MO Theory concepts, in the Organic Chemistry syllabus.
2	Arrange advance analytical techniques training in M.Sc. Chemistry	In the M.Sc. Chemistry curriculum, we have already included practicals for UV-Visible Spectroscopy and IR Spectroscopy. Additionally, we organize hands-on training sessions for all the sophisticated instruments available at the university and arrange field visits to explore other advanced instruments.
3	In syllabus industrial separation techniques should be added in M.Sc. Chemistry	Updated the syllabus to incorporate modules covering industrial separation techniques, ensuring alignment with academic standards and industry requirements.

Action Taken Report based on Academic Peer's Feedback

Faulty: Faculty of Science

Department: Industrial Chemistry

Sr. No.	Suggestions	Action Taken
1	Department have to arrange the seminar at regional, national and international level	National level seminar arranged for academic as well as industries
2	Innovative work should be carried out by the students	Students worked on concept to practice which is helpful for entrepreneur skills in future
3	students should take initiative for presentation on particular topic	students actively participated in IGNITE forum and give presentation on particular topic for betterment of knowledge
4	Revise the course curriculum in the Heterocyclic Chemistry, Unit Processes & Reagents and material science	As per suggestions, modification in suggested course have been carried out
5	Carry out Industry-Academia program which is necessary for students	Industry-Academia program arranged for betterment of students at Zydus lifescience, Ltd., Ankleshwar

Action Taken Report based on Academic Peer's Feedback

Faulty: Faculty of Engineering & Technology

Department: Computer Engineering

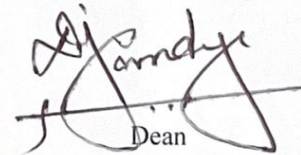

Sr. No.	Suggestions	Action Taken
1	Peers recommended integrating technology more effectively into teaching and learning processes to enhance engagement and effectiveness.	Provided faculty members with training and resources to incorporate technology-enhanced teaching methods such as flipped classrooms, online learning platforms, and interactive multimedia materials. Encouraged the use of educational technologies for assessments, feedback, and collaboration.
2	Peers emphasized the importance of fostering a culture of continuous improvement and innovation within the department.	Established mechanisms for collecting and analysing feedback from stakeholders, including students, faculty, alumni, and industry partners. Implemented regular program reviews and evaluations to identify strengths, weaknesses, and areas for improvement. Encouraged faculty and staff to participate in professional development activities and pursue scholarly endeavours.

Stakeholder: Alumni

Action Taken Report based on Alumni's Feedback

Faulty: Faculty of Engineering & Technology

Department: Information Technology

Sr. No.	Suggestions	Action Taken
1	Alumni suggested integrating technology more effectively into teaching and learning processes.	Invested in educational technology infrastructure, including learning management systems, online course platforms, and virtual labs. Provided faculty training and support for integrating technology into curriculum delivery and assessment. Encouraged the development of digital learning resources, multimedia content, and interactive learning materials. Fostered experimentation with emerging technologies such as AI, VR, and AR in educational settings.
2	Alumni expressed concerns about the quality of education and the need for continuous improvement processes.	Established a quality assurance framework and assessment mechanisms to monitor and evaluate program outcomes and student learning. Conducted regular program reviews, stakeholder surveys, and accreditation processes to ensure adherence to quality standards and best practices. Implemented feedback mechanisms to gather input from students, alumni, faculty, and employers for continuous improvement. Engaged external reviewers and experts for program benchmarking and benchmarking against peer institutions.
